Karen Plagman, 942 Oarcreek Rd, stated that she and her family wanted to show support for Officer Lichte and two other officers. She added that Pete Lichte is one of the most honorable people she knows and hopes that the City of Woodburn takes heed into the claims of misconduct that have been brought forward.

Terri Coleman, 192 Young Street, stated that she and her husband Doug Coleman owner of Industrial Machining Corp., are also here in support of the three officers and that they personally know Dan Kelly and that his character is of the upmost highest level. She added that they feel there is a level of corruption in the Woodburn Police Department that needs to be addressed.

Merri Berlin, 167 N. Settlemier provided a handout to the City Council regarding cars parking in lawns and wanted to know if the request for a report on violations from the last meeting has been implemented. Jim Hendryx answered that he is working on getting information on this for a presentation at the next council meeting. City Administrator Derickson answered that it is complex because some of the codes are applicable to properties based on their age. Merri Berlin stated that these ordinances are in place, no parking on the lawns you need to be in front of your driveway, and doesn't understand what type of research needs to go into this. City Administrator Derickson answered that they are researching the applicability of the codes based on age, and other rules such as ADA issues and they want to make sure they get the correct information out to the citizens which is why they are looking into it.

Allen Lindberg, 1860 Jansen way, stated that he is employed by First Student as a school bus driver. He added that he also sees a lot of homes were there are cars parking on the lawns and that it would help improve neighborhoods if there was more enforcement. He also suggested that the Settlemier and Hayes Street intersection be widened where you turn right. Councilor
