

Re: Sole Source Letter for Flock Safety LPR Camera Service

To: Chief Pilcher

Date: 6/27/24

Flock Safety is the sole manufacturer and developer of the Flock Safety Camera. Flock Safety is also the sole provider of the comprehensive monitoring, processing, and machine vision services which integrate with the Flock Safety Camera and are provided as an end-to-end service LPR camera service.

Description:

- Wireless deployment of license plate reading cameras with integrated solar and cellular networks
- Wireless ALPR camera in total weighing less than 5lbs
- On device machine processing to limit LTE bandwidth consumption
- Covert industrial design for minimizing visual pollution
- Machine vision to analyze vehicle license plate, vehicle color, and vehicle make
- Machine vision to detect persons, animals, vehicles, and other cars
- Privacy controls to enable certain vehicles to “opt-out” of being captured on film
- Cloud storage of footage
- Web based footage retrieval tool with filtering capabilities such as vehicle color, partial/full license plate, license plate state, temporary or paper license plates and object detection such as bicycles, motorcycles and people
- Web based real-time alert tool for provision of NCIC-based alerts as well as customer-defined hot list alerts. Real time alert tool uses license plate state detection to maximize actionable alerts while minimizing false alerts.
- Performance monitoring software to predict potential failures, obstructions, tilts,

and other critical or minor issues
