## METHOD of FOUNDATION VERIFICATION

Permit Number \_\_\_\_\_ Date \_\_\_\_\_

Address \_\_\_\_\_

\_\_\_\_\_ I will have string lines installed prior to the requested time of the footing inspection (minimum one at the rear of the lot and one side of the lot). I certify that these string lines are the true property boundaries.

Note: If you choose this option and do not provide the string lines, the inspector will not be able to inspect your footing and/or foundation.

\_\_\_\_\_ I will provide a certification from a surveyor verifying the buildings location on the property at the time of foundation inspection.
